

# The AI Automation Code For Affiliate Marketers

## The Checklists

# Autopilot Affiliate Offer Rotation Checklist

- ☐ Choose a link management tool (ClickMagick, Pretty Links, or Lasso)
- ☐ Import your affiliate links into the tool
- ☐ Set up rotation rules (random, weighted, or performance-based)
- ☐ Connect the tool to Zapier, Make, or n8n for automation triggers
- ☐ Define performance thresholds (e.g., low CTR or conversions)
- ☐ Configure automatic link swaps when thresholds are met
- ☐ Add AI-generated promo copy for new rotated offers
- ☐ Test links to confirm proper rotation across your site and emails
- ☐ Monitor reporting to ensure rotations improve performance
- ☐ Keep backup offers loaded for seamless replacements
