

The AI Automation Code For Affiliate Marketers

The Checklists

Autopilot Compliance And Link Health Monitor Checklist

- ☐ Install a link monitoring tool
- ☐ Connect the tool to crawl your entire site for affiliate links
- ☐ Add a compliance plugin (WP AutoTerms or Termageddon) for FTC disclosures
- ☐ Set up weekly or monthly automated scans
- ☐ Use AI (ChatGPT with Zapier/Make) to summarize scan results
- ☐ Flag broken or redirected affiliate links for replacement
- ☐ Review pages missing FTC disclosures and apply fixes
- ☐ Create alerts for compliance or link health issues
- ☐ Test affiliate links after fixes to ensure they work correctly
- ☐ Keep a backup product link ready to swap if one goes down
